To whom it may concern,

It is my pleasure to offer Greg Harrap of Harrap Constructions PTY LTD this business reference. I have had the opportunity to work with Mr. Harrap for the past six months on a large spar buoy deployment.

From the inception of this project, Mr. Harrap has been involved in sourcing plant, services, and materials that have helped my company reduce the final cost of the project. During my time working with Mr. Harrap, he has not only assisted myself in the management of this project, but has also carried out the machining, fabrication, and coating of the various components I have required him to build to carry the out the project.

I would have no hesitations in suggesting other companies make use of his and his employee's talents, and would endeavor to do so on the next project which requires the high standard of fabrication he can produce. Please do not hesitate to contact me if you have any questions.

Regards,

ADRIAN HANNAM
